Subject: Reminder: CPPR Ad-Hoc Survey regarding facilities maintenance and repair

To those of you who have already responded, we send our thanks. To those who have not we encourage you to please do so by tomorrow. The purpose of this survey is to better meet your needs so your input is very important to us.

My Best,

Patti

The Chancellor established the Committee on Process and Policy Review (CPPR) to identify ways campus practices could be improved to enhance the level of support provided for the work of the faculty, staff and students. One of the areas identified for review by CPPR consists of selected Physical Plant and Facilities Planning/Alterations functions, e.g. , small projects, routine maintenance, keys, and the building coordinator system. An ad-hoc sub-committee of the CPPR (Donald Tomaskovic-Devey, Chair Sociology; Bruce McCandless, Director of Research Affairs; Pat Daly, Director of Physical Plant; Shane Conklin, Deputy Director of Facilities Planning; Patti Cromack, Director of Operations, College of Natural Sciences; Ruth Yanka, Director of Administration and Finance Budget and Operations) is seeking your assistance with the following survey.

The purpose of this survey is to provide information to assist the CPPR subcommittee in their effort to identify ways in which your needs can be better met. As a building coordinator, the subcommittee feels that you have the best understanding of these issues and therefore can best contribute.

Please access the survey via the link below and answer the questions prior to November 5. If you should have any questions, please don't hesitate to contact me.
